

The Michael Gold Early Career Investigators Webinar Series

Presents

SPEAKER: Jeff Dong, PhD

Assistant Professor, Department of Microbiology and Immunology, University of British Columbia, Vancouver, British Columbia, Canada

Website: [Jeff Dong Website](#)

E-mail: jeff.dong@ubc.ca

Dr. Dong is an Assistant Professor in the Department of Microbiology and Immunology at the University of British Columbia. His research focuses on understanding the mechanisms that regulate neuroinflammation and oxidative injury in the central nervous system. Prior to joining UBC, Dr. Dong was an Assistant Professor in the Department of Biochemistry, Microbiology, and Immunology at the University of Saskatchewan. He completed his postdoctoral training with the Yong lab at the Hotchkiss Brain Institute at the University of Calgary. He received his PhD (2018) and BSc (2012) in Microbiology and Immunology from UBC.

TITLE: Oxidized phosphatidylcholines: lipid mediators of neuroinflammation and oxidative injury in multiple sclerosis

TIME: November 5, 2026, 3:00 PM EDT

ZOOM: Register for the meeting [here](#)

HOST: Dr. Pete Pioli, *University of Saskatchewan*

The Michael Gold Webinar Series has been established by the Canadian Society for Immunology (CSI) to honor a current or past CSI member who has made lasting contributions to the mentoring of early career investigators and postdoctoral scholars transitioning into independent research positions. Dr. Gold is a Professor and former Head of the Department of Microbiology and Immunology at University of British Columbia and the 2013 recipient of the CSI Cinader Award. He is known for his many contributions to the scientific community, including his roles in mentoring trainees of all levels to the top.
