Dr. Leligdowicz is an assistant professor and a clinician scientist in the Department of Medicine in the Division of Critical Care Medicine and the Department of Microbiology and Immunology at Western University. Her research at Robarts Research Institute focuses on mechanisms of immune regulation and endothelial dysfunction to personalize treatment options for patients with early critical illness.

TITLE: **Immunology of early critical illness**

TIME: March 12, 2026, 3:00 PM EST

ZOOM: Register for the meeting [here](#)

HOST: Dr. Mansour Haeryfar, *Western University*

The Michael Gold Webinar Series has been established by the Canadian Society for Immunology (CSI) to honor a current or past CSI member who has made lasting contributions to the mentoring of early career investigators and postdoctoral scholars transitioning into independent research positions. Dr. Gold is a Professor and former Head of the Department of Microbiology and Immunology at University of British Columbia and the 2013 recipient of the CSI Cinader Award. He is known for his many contributions to the scientific community, including his roles in mentoring trainees of all levels to the top.
