Dr. Valeria Ramaglia is a Scientist at the Krembil Brain Institute and an Assistant Professor in the Department of Immunology at the University of Toronto. She received her Bachelor's degree from the University of Bologna in Italy, followed by an MSc from the University of Toronto and a PhD from the University of Amsterdam. She completed postdoctoral training at the Netherlands Brain Bank and at Cardiff University in the UK before joining Dr. Jennifer Gommerman's laboratory at the University of Toronto as a Research Associate. She joined the Krembil Brain Institute in 2025. Her research investigates how aging-related immune changes contribute to cognitive decline in people with neurodegenerative diseases, including multiple sclerosis.

TITLE: **Understanding and tracking compartmentalized inflammation in multiple sclerosis**

TIME: December 10, 2026, 3:00 PM EDT

ZOOM: Register for the meeting here

HOST: Dr. Jen Gommerman, *University of Toronto*

*The Michael Gold Webinar Series has been established by the Canadian Society for Immunology (CSI) to honor a current or past CSI member who has made lasting contributions to the mentoring of early career investigators and postdoctoral scholars transitioning into independent research positions. Dr. Gold is a Professor and former Head of the Department of Microbiology and Immunology at University of British Columbia and the 2013 recipient of the CSI Cinader Award. He is known for his many contributions to the scientific community, including his roles in mentoring trainees of all levels to the top.*
