Dr. Deanna Santer is an Assistant Professor and GlaxoSmithKline Research Chair in Immunology of Infectious Diseases at the University of Manitoba (as of November 2020). She received her PhD in Immunology from the University of Washington and completed post-doctoral training at the University of Alberta studying antiviral immunity and the immunoregulatory roles of the newest family of interferons (type III interferons). Dr. Santer's research group aims to understand how interferons modulate immune responses against pathogens or during periods of chronic inflammation (eg. inflammatory bowel disease).

**TITLE:** Roles of Type III Interferons in Antiviral Immunity and Beyond

**TIME:** May 18, 2023, 3:00 PM EST

**ZOOM:** Register for the meeting [here](#)

**HOST:** Dr. Aaron Marshall, *University of Manitoba*

*The Michael Gold Webinar Series has been established by the Canadian Society for Immunology (CSI) to honor a current or past CSI member who has made lasting contributions to the mentoring of early career investigators and postdoctoral scholars transitioning into independent research positions. Dr. Gold is a Professor and former Head of the Department of Microbiology and Immunology at University of British Columbia and the 2013 recipient of the CSI Cinader Award. He is known for his many contributions to the scientific community, including his roles in mentoring trainees of all levels to the top.*
